1. It is reported that a considerable section of the area adjoining the Bled-Bohinj road has been proclaimed a military zone and civilians are strictly forbidden to enter it. Local inhabitants of the neighborhood claim that military fortifications and V-2 launching sites are being erected there. The local population is said to have been told that initial V-2 launching trials have already been attempted.
2. During the end of September and the beginning of October 1946, several train loads of munitions were dispatched to Slovenia. The munitions have been stored in a narrow valley near Smlednik in the near vicinity of Kranj.
3. During the month of September 1946 and the beginning of October 1946 about 100 train carloads of arms and munitions were sent to the Yugoslav-Albanian-Greek frontiers to be delivered illegally to ELAS forces in Greece. A considerable part of these arms and munitions passed through Zagreb. On 30 September 1946 approximately 1,500 Yugoslav Partisans and young men belonging to the Greek ELAS movement passed through Belgrade in transit to Greece. It is rumored that they received special training in Russia.
4. An order was published at the beginning of October 1946 and issued by the Ministry of People's Defense dealing with the demobilization of certain classes. Under the pretext of demobilization the last purge of former regular army Yugoslav officers and NCO's, as well as other unreliable elements, will be carried through. Demobilization of Partisans is being carried out partly because a large number of those demobilized are to be sent illegally to Greece or Spain either at once or after they have attended a short course of instruction.
5. Lt. General Peko Dapchevic, Lt. General Mihailo Apostolovski, and other unidentified Yugoslav generals, as well as numerous Partisan officers, have been sent to the Soviet Union for special training.
